Roca Verde: Sport Climbing in North-West Spain - Asturias, Cantabria & Leon Richard Patterson

Roca Verde is designed to publicise one of the best-kept secrets in European climbing; the fantastic sport climbing in and around the Cordillera Cantabrica mountain range in north-west Spain. Selected crags in Asturias, Cantabria and Leon, create a guide which incorporates the areas most utilised by the regions' climbers. The Roca Verde region is well served by international flights and ferries, has an excellent road network and, unlike much of Spain, has a climate that is amenable to climbing through the summer months. This is the first dual language guide to any of these areas, it's also the first guide ever to include the crags in the Desfiladero de La Hermida, and is currently the only sport climbing guide to Leon. Roca Verde contains over 40 selected venues, over 190 distinct sectors and nearly 3000 routes. Just as importantly, it includes the information the locals know; how to choose the right venue for sun or shade, summer or winter and for whatever grade you climb. English and Spanish text.
